## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

## **DETAILED ACTION**

### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Information Disclosure Statement***

2. The information disclosure statement filed 07-24-03 has been considered.

### ***Drawings***

3. The drawings are objected to because in figure 2, the reference characters "DL1" and "WL1" are transposed. Similarly, the reference characters "DL2" and "WL2" are transposed. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Specification***

4. The disclosure is objected to because of the following informalities: On page 12, line 4; the word "filed" should be --field--. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 2818

6. Claims 5, 9 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

7. Claim 5 recites the limitation "the bit line" in line 3. There is insufficient antecedent basis for this limitation in the claim.

8. Claim 9 recites the limitation "said first direction...a second voltage" in lines 10 through 12. The claim as written does not make sense because "first direction" and "second direction" cannot be coupled to a voltage. It appears the claim is omitted some elements.

9. Claim 10 is rejected for incorporating the limitation of claim 9.

***Allowable Subject Matter***

10. Claims 1-4, 6-8 are allowed.

11. Claims 5, 9 and 10 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

12. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record fails to teach a power supply scheme in a thin film magnetic memory device. In particular, a bit line driver arranged on one side of a memory region is supplied with power from one side, and a bit line driver arranged on the other side of the memory region is supplied with the power from the other side.

Art Unit: 2818

**Conclusion**

13. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Takashima, Daisaburo (U.S. Patent 5,894,447) and Tsuji, Takaharu et al. (U.S. Patent 6,618,317) teach arrangements of power supply lines in magnetic memory devices.
